

NOTICE FOR GENPACT CAMPUS PLACEMENT DRIVE – 2015-16

About Company	<p>Genpact has a unique heritage, which has contributed to our deep understanding of process. We began in 1997 as a business unit within GE, building the company from the ground up. Our charter was to provide business process services to GE's businesses, with the goal of enabling outstanding efficiencies. During the eight years that followed, we earned the opportunity to manage a wide range of processes from the simple to complex, operating across GE's financial-services and manufacturing businesses.</p> <p>In January 2005, we became an independent company bringing our process expertise and unique DNA in Lean Six Sigma to clients outside of GE. Our new name, Genpact, conveys the business impact we generate for our clients.</p> <p>In August 2007, Genpact was listed on the NYSE under the symbol 'G'. Since then, we have grown rapidly, from 32,000 employees and a revenue of US\$823 million, to more than 65,000 employees and revenues of almost US\$2.1 billion (2013).</p>
